## Balling Guns

### 01-1001 Mini Balling Gun

Balling gun with spring clips 1.25" Metal head, brass : Length 14.75"

### 01-1002 Metal Head Balling Gun

Balling gun with 3" Metal head, brass: Length 17".

### 01-1003 Plastic Head Balling Gun

Balling gun with 2.5" Plastic head, brass: Length 17".

### 01-1004 Balling Gun

Balling gun with 5" Metal head, brass: Length 22".

### 01-1005 Rubber Head Balling Gun

Balling gun with spring clips 4" Rubber head, brass: Length 23.5".

### 01-1006 Pistol Balling Gun / Multi Bolus Balling Gun

Nickel-plated metal balling gun which holds up to six large boluses at one time. Uses a spring-action end-clip to secure boluses in barrel: Length 18.25".

### 01-1007 British Capsule Forceps

Excellent for capsuling sheep or horses. Stainless steel: Length 12".

## Bone Surgery

**01-1008** Bone Cutting Forceps (Stille-Liston)

Also available in curved blade. Length 10.5".

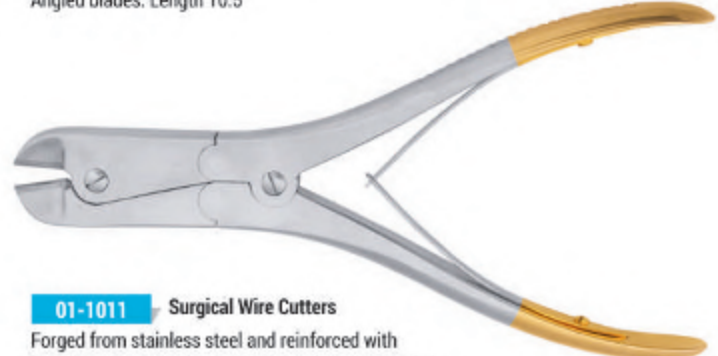

**01-1009** Bone Cutting Forceps (Stille-Liston)

Angled blades. Length 10.5"

**01-1010** Surgical Wire Cutters

Forged from stainless steel and reinforced with tungsten carbide tip or specially

**01-1011** Surgical Wire Cutters

Forged from stainless steel and reinforced with tungsten carbide tip or specially tempered tool steel. Size 9.25"

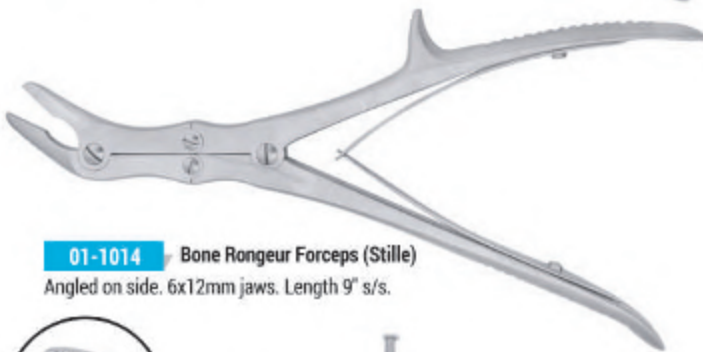

**01-1012** Bone Rongeur

(Leksell-Stille) Length 9" s/s.

**01-1013** Surgical Pin Cutters

Cutting tools used to cut the wires and pins implanted during the orthopedic surgeries to fix the fractures. They are forged from stainless steel and reinforced with tungsten carbide or specially tempered tool steel. The handles are so firm that they are able to provide more power for cutting and absorb the jerk of wire cutting. Length 18.5".

**01-1014** Bone Rongeur Forceps (Stille)

Angled on side. 6x12mm jaws. Length 9" s/s.

**01-1015** Bone Holding Forceps (Verbrugge)

Verbrugge bone forceps for holding / positioning re-positioning bone. Available sizes 10.5" s/s.

**01-1016** Bone Holding Forceps

Length 11" s/s

**01-1017** Bone Holding Forceps (Lambotte)

Lambotte bone holding forceps with ratchet. Available Sizes 8.5", 10", 13" s/s.

BS-2008

## Bone Surgery

**01-1018** Bone Holding Forceps  
Length 13.5" s/s.

**01-1019** Bone Holding Clamp Lowman  
Lowman bone clamp for holding, positioning, re-positioning bone. 1 x 2 Prong Jaws. Length 8" s/s.

## Branding Instruments

**01-1020** Revolving Head Tattoo Pliers  
Made of special aluminum alloy. Head holds four dies on each side, for a total of eight digits. Size 3/8" revolving head tattoo outfit.

**01-1021** Standard Tattoo Pliers  
Designed in the same general style as our regular cattle tattoos but reduced in size to make work more convenient with small animals. Head holds four dies, for a total of four digits. Size 3/8".

**01-1022** Small Tattoo Pliers  
Light weight pattern, designed for small animals. Made of aluminum alloy. Head holds four dies, for a total of four digits. Size 0.25".

**01-1023** Tattoo Letter Set 0-9  
Tattoo digits for Revolving head tattoo pliers and Standard tattoo pliers. Size 3/8". Tattoo digits for Small tattoo pliers. Size 0.25".

**01-1024** Aluminum Paint Branding Irons  
Made of aluminum castings, light in weight. Set consists of nine irons in 2.5" sizes. 0.5" depth, 1.5" width. Also available in 4" sizes. NOTE: A set 0-9 does not include the figure 9. The 6 iron can be reversed to make the figure 9.

**01-1025** Aluminum Tattoo Pliers  
The Aluminum Tattoo Pliers has a heavy duty spring for quicker release.

**01-1026** Tattoo Pliers  
Made of carbon steel.

**01-1027** Tattoo Pliers  
Two rows of tattoo digits can be inserted at a time. Made of carbon steel.

## Castration Instruments

**01-1028** Emasculatome 9" Castrator- Extra Small Size

These are precision-made instruments for the humane and bloodless castration of live stock by severing the testicular cord without injury to the bag (scrotum). Also Available with plastic and wooden grips. For lambs. Length 9".

**01-1029** Emasculatome 12" Castrator- Small Size

Also available with plastic grips. For lambs and young calves or for docking lambs tail. Length 12".

**01-1030** Emasculatome 14" Castrator- Medium Size

Also available with plastic grips. For calves and young bulls. Length 14".

**01-1031** Emasculatome 16" Castrator- Large Size

Also available with plastic grips. For mature bulls. Length 16"

**01-1032** Emasculatome 19" Castrator- X Large Size

Also available with plastic grips. For bulls, horses, buffalo, and camels. Length 19".

**01-1033** Large/Deluxe Castrating Band Applicator Aluminum

Heavy-duty aluminum ring applicator with notched expanding fingers to hold the ring. Useful on lambs, calves, goats and other animals

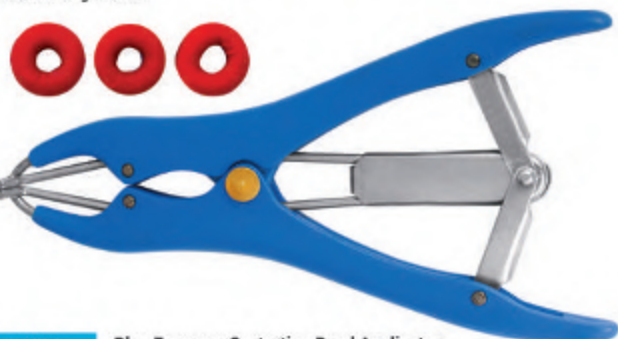

**01-1034** Castrating Band Applicator-Stainless Steel

For applying latex rings/bands used in tail docking and castration. The tapered nose prevents dirt build-up. Roller insures smooth operation: Length 8.75".

**01-1035** Castrating Band Applicator- Nickel Plated

For applying latex rings/bands used in tail docking and castration. The tapered nose prevents dirt build-up. Roller insures smooth operation: Length 8.75".

**01-1036** Blue Economy Castrating Band Applicator

Designed for quick and easy one-person operation. Lightweight blue plastic grips, textured for sure-grip, comfortable to use. Useful on lambs, calves, goats and other animals.

**01-1037** Crutch Knee Wrench - For Large Emasculatomes

The use of the crutch knee attachment makes possible a one-person operation with the larger emasculatome. Set consists of polished crutch attachment and spanner wrench. Fits 14", 16" and 19" emasculatomes only.

## Castration Instruments

**01-1038** Ear Docking

For dog's ear docking. Aluminum made. Straight, 12cm. Also available in curved.

**01-1039** Frank's Emasculator

Length 7-1/2", 9", 10-1/2" s/s.

**01-1040** Haussman's Emasculator

Double crush prevents primary and secondary hemorrhage because of the multiple crushing of the spermatic cord and artery. Sizes available 7-1/2", 9", 10", 11", 12" s/s

**01-1041** White's Emasculator

Length 7-1/2", 9", 10", 11", 12" s/s.

**01-1042** Haussman's Emasculator / Real Product

Curved, sizes available from 7-1/2", 9", 10", 11", 12" s/s.

**01-1043** Reimer's Emasculator

A very popular emasculator has a double crushing part. The cutting lever is worked separately. This allows extra time for crushing action and eliminates after bleeding: Length 12" s/s.

**01-1044** Serra's Emasculator Curved

A concave cutting plate draws the cord concentrically in to the jaws of the castrator. Reduces tissue slippage and post-op hemorrhage. Length 14" s/s

**01-1045** Serra's Emasculator Curved With Ratchet

It has curved non slip grips and positive crush for one hand use with ratchet: Length 14" s/s.

**01-1046** Serra's Emasculator With Ratchet

This newly designed instrument draws the cord concentrically into the jaws, thus preventing slipping of the cord. ratchet holds emasculator locked: Length 13-1/2" s/s.

**01-1047** Sand's Emasculator

Draws the cord concentrically in to the jaws, thus preventing slipping of the cord. Hemorrhage is reduced to a minimum ratchet holds forceps locked: Length 12" s/s

**01-1049** Gas Tail Docker

For quick, painless and economical tail docking of piglets. Stainless steel.

**01-1048** Castration Hook for Male cats

**01-1050** Newberry Castrating Knife

A stainless steel castrating knife will split the scrotum for easier removal of testicles with 2" blades. Overall Length 10.5".

## Ear Marking & Taging

**01-1051** Flower-Cut Ear Notcher  
The stainless steel construction with sharp, clean cut and slide spring action handle make these notchers ideal for identification purposes. Cuts notch 1" long. Length 8".

**01-1052** W-Cut Ear Notcher  
A high-quality, stainless steel ear notcher Cuts a "W" notch 0.70" long. Length 6".

**01-1053** U-Cut Ear Notcher  
A high-quality, stainless steel ear notcher Cuts a "U" notch 0.70" long. Length 6".

**01-1054** Small Ear Notcher With V-Cut  
A high-quality, stainless steel ear notcher Cuts a "V" notch 8mm/0.32" base x 16mm/0.63" long. Length 6".

**01-1055** Medium Ear Notcher With V Shape Die  
A high-quality, stainless steel ear notcher Cuts a "V" notch 12mm/0.47" base x 18mm/0.71" long. Length 6".

**01-1056** Large Ear Notcher With V Shape Die  
carefully ground after being hardened and tempered. Dies are not interchangeable. 20.85mm/0.82" cut. Length 9.37".

**01-1057** Ear Tag Applicator

**01-1058** Plastic Tag Applicator  
For applying plastic tags to the ears. Length 9".

## Dehorning Instruments

**01-1059** Dehorner Wooden Handle  
Wooden handle dehorner: Length 13" c/s.

**01-1060** Dehorner Metal Handle  
Straight metal handle dehorner with rubber grips: Length 13" c/s, c/p.

**01-1061** Dehorner Metal Handle  
Straight metal handle dehorner with rubber grips: Length 17" c/s, c/p.

**01-1062** Dehorner Metal Handle  
Straight metal handle dehorner with rubber grips. Heat-treated steel cutting blades: Length 13" c/s, c/p.

## Equine Dental Instruments

**01-1063** Tooth Cutter  
Hardened stainless steel simple joint lower molar cutters with permanent handles. Length 22" s/s.

**01-1064** Tooth Cutter  
Molar cutter with simple joint. Available in 3 different models. 1) Closed Edges. / 2) Medium Gap. / 3) Wide Gap. Length 22" s/s.

**01-1065** Molar Forceps  
Length 18", 22" s/s.

**01-1066** Equine Molar Forceps-  
Gunther Tooth Forceps. Length 22" s/s.

**01-1067** Molar Forceps  
Serrated jaw creates good purchase on cheek teeth and premolar caps. A hugely versatile pair of forceps for every day use. Length 22" s/s.

**01-1068** Molar Spreader  
Used for loosening cheek teeth prior to extraction: Length 19", 22" s/s.

**01-1069** Molar Incisor Extractor  
These are designed to remove hard to get at rear molars but can also be used to remove incisors. Length 22" s/s.

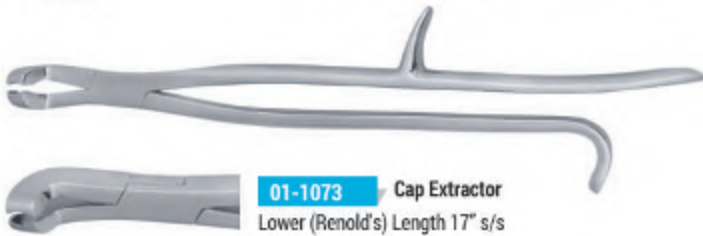

**01-1070** Equine Compound Molar Cutter  
Stainless steel compound molar cutters with permanent handles. Powerful compound action. Available in 4 different models. 1) Fully Open Jaw. / 2) Closed Jaw. 3) Part Open Jaw. / 4) Part Open Jaw Angled. Length 24", 25", 26" s/s.

## Equine Dental Instruments

**01-1071** Wolf Tooth Forceps  
These extracting forceps are ideal for use in wolf teeth extractions and incisor cap extractions. Length 9" s/s.

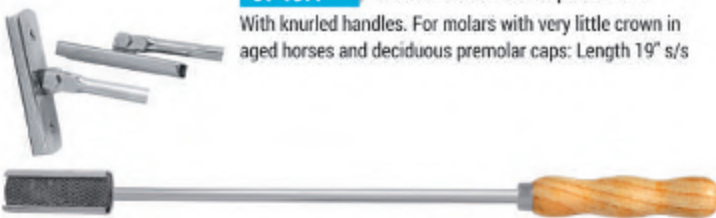

**01-1073** Cap Extractor  
Lower (Renold's) Length 17" s/s

**01-1075** Compound Rongeurs  
Stainless steel compound rongeur with offset head works well for wolf teeth, blind wolf teeth, incisor fragments and most tooth and cap slivers. Length 9" s/s.

**01-1077** 3 Root Box Joint Forceps On Side  
With knurled handles. For molars with very little crown in aged horses and deciduous premolar caps: Length 19" s/s

**01-1079** Dental Float Moveable  
Float comes with the moveable head with one wooden handle. With two screws in back to hold blade. Length 22".

**01-1081** Dental Float  
Combination float comes with both a straight and angled head. Length 10", with one wooden handle. Length 10.5". With two screws in back to hold blade. One rasp/rasp and one rasp/file in set. Length 20.5"

**01-1072** Wolf Tooth Forceps / Extracting Forceps  
Knurled handles provide optimum grip even when wet. Length 10" s/s.

**01-1074** Cap Extractor  
Upper (Renold's) Length 17" s/s.

**01-1076** Fulcrum Serrated Jaw Box Joint Forceps  
For extraction of first and second premolars or the number six and seven cheek teeth. This unit uses the hinge portion of the forceps for a fulcrum.

**01-1078** 3 Root Box Joint Forceps Off Side  
With knurled handles. For molars with very little crown in aged horses and deciduous premolar caps. Length 19" s/s.

**01-1080** Pig Tooth Nipper  
Hardened stainless steel nippers with no gap in the jaws, construction with spring handle action. Also for cutting tails. Length 5" s/s.

**01-1082** Equine Speculum By Schoupe  
Reduces the danger of slipping with this instrument since it is held in place by the equine cheek area. I

**01-1083** Bayer's Mouth Wedge  
Very handy when examining the oral cavity or doing dental work in equine, s/s.

# Farrier Tools

**01-1084** Hoof Nipper T.C Tip Modified  
A modified instrument which is forged from stainless steel and reinforced with tungsten carbide tip. Length 15". Also available in high carbon steel.

**01-1085** Hoof Nipper  
Particularly handy for farriers trimming larger feet or cob type horses with thicker walls. Forged from stainless steel. Length 15". Also available in high carbon steel.

**01-1086** Hoof Nipper  
Ideal for trimming away excess hoof wall or claws. Forged from stainless steel. Length 14". Also available in high carbon steel.

**01-1087** Hoof Nipper  
A very nice precision instrument, forged from stainless steel. Length 12".

**01-1088** Hoof Nipper  
Length 14". Also available in 12", 15" c/s.

**01-1089** Hoof Nipper  
Length 12". Also available in 14", 15" c/s.

**01-1090** Hoof Nipper Curved Blade T.C Tip Modified  
A modified instrument which is forged from stainless steel and reinforced with tungsten carbide tip. Length 15". Also available in 12", 14" c/s.

**01-1091** Hoof Nipper Curved Blade  
A modified instrument which is forged from stainless steel and has a curved blade. Length 15". Also available in 12", 14" c/s.

## Farrier Tools

**01-1092** Heavy Duty Hoof Nipper  
Fine quality steel hoof nipper with cushion grip handles. Length 15". Also available in 12", 14" c/s.

**01-1093** Hoof Nipper  
Designed exclusively to trim away excess hoof wall. Length 15". Also available in 12", 14" c/s.

**01-1094** Hoof Nipper  
Hoof nipper is used to trim away excess hoof wall. Vinyl handles give a comfortable feel in the hand. Length 15" c/s.

**01-1095** Hoof Nipper  
Hoof Nipper Length 12" c/s.

**01-1096** Shoe Puller And Spreader With T.C Tip Modified  
A combination shoe puller and spreader. Heat treated for strength. It is a modified instrument with a Tungsten Carbide tip. Length 13".

**01-1097** Shoe Puller And Spreader  
A combination shoe puller and spreader. Has exclusive pattern with sharp teeth on outside edges. Length 13" c/s.

**01-1098** Shoe Puller And Spreader  
Has exclusive pattern with sharp teeth on outside edges. For ease in spreading most shoe sizes and styles. Length 13" c/s.

**01-1099** Shoe Pullers (Pull-Offs)  
As sharp as a nipper so you can easily use it as a nail cutter. Length 15".

# Farrier Tools

**01-1100** Gooseneck Clincher  
Length 12" c/s. Also available in stainless steel.

**01-1101** Low Nail Curved Jaw Clincher  
The curved jaw clincher features a proven design for excellent performance and reliability. Length 13" c/s. Also available in stainless steel.

**01-1102** Farrier Clincher  
For use on high and low nails. Used to roll over nails with curved jaw. Length 13" c/s. Also available in stainless steel.

**01-1103** Gooseneck Clincher  
Powder coating makes it rust resistant. Length 12" c/s. Also available in stainless steel.

**01-1104** Farrier Clincher  
For use with larger nails used in saddle horse hoofs to roll over and clinch nails. Oil quating makes it rust resistant. Length 12" c/s. Also available in stainless steel.

**01-1105** Farrier Clincher  
To roll over nails with curved jaw. Red vinyl coated handle gives a comfortable grip. Length 13" c/s. Also available in stainless steel.

**01-1106** Farrier Clincher  
For use with large nails used in saddles horse hoofs to roll over and clinch nails. Oil quating makes it rust resistant. Length 12" c/s. Also available in stainless steel.

**01-1107** Cutting Nipper  
For cutting and pulling with cushion grip handles. Oil tempered and drop forged. Length 12" c/s. Also available in stainless steel.

**01-1108** Cutting Nipper  
For cutting and pulling with cushion grip handles. Length 12" c/s. Also available in stainless steel.

**01-1109** Crease Nail Puller  
For the removal of nails when worn down inside the grooves of the shoe, 12" s/s

**01-1110** Crease Nail Puller powder  
Coated Removes nails from crease of shoes that has been on horse for some time, 12" carbon steel powder coated. Also available in stainless steel.

**01-1111** Shoe Spreader  
The design of this tool is simply a levering device with a differential length of arms on the head. The shoe there by opening it exactly where you want.

**01-1112** Clinch Cutter  
Clinch cutter on one end and pritchel on opposite end s/s.

**01-1113** Clinch Cutter Powder Coated  
Clinch cutter on one end and pritchel on opposite end, Powder coated c/s.

**01-1114** Farrier Hammer

## Grooming Equipments

01-1119

**01-1115** Horse Machine  
Removes unwanted whiskers and hairs. American pattern, Sand caste, Chromed.

**01-1116** Horse Machine  
Removes unwanted hair and whiskers from Horse & Cattle, Putor, German pattern. Red wooden handle.

**01-1117** Machine For Sheep  
Removes unwanted hair from Sheep Putor, German pattern, Red wooden handle.

**01-1118** Hand Clipper  
Spring type sheep shear (For Horse, Camel and Donkey)

**01-1120** Bot Egg Knife Plastic  
The safe efficient way to remove bot eggs. It has no sharp edges to gouge the horse and can be used by the youngest rider with safety. This bot egg knife is 8.75" long with a stainless steel blade.

**01-1121** Bot Egg Knife Wooden  
This bot egg knife is 8.75" long with a stainless steel blade and durable wooden handle.

**01-1122** Fetlock Shears  
Can be used in either hands with blades curving left or right. Stainless steel.

**01-1123** Post Mortem Scissor  
Heavy-duty scissors with one serrated edge. Sand caste, Stainless steel, length 7-3/4". Also available with black finished rings.

## Hoof Rasps

**01-1124** Flat Rasp  
A flat rasp with rasp cut on one side and double cut file on other. Super sharp. Length 36cm c/s.

**01-1125** Flat Rasp  
A flat rasp with rasp cut on one side and double cut file on other. Super sharp. Length 36cm c/s.

**01-1126** Hoof Rasp X Style  
Rasp teeth on one side with file teeth on other. Length 31cm c/s.

**01-1127** Hoof Rasp X Style  
Rasp teeth on one side with file teeth on other. Length 31cm c/s.

**01-1128** Hoof Rasp  
Rasp teeth on two side with file teeth on other. Length 31cm c/s.

**01-1129** 4-Way Hoof Rasp  
The file has different filing grades: fine, medium fine, medium. This allows you to file the hooves to proper length while shaping and smoothing the rough and sharp edges. The 4-Way Hoof Rasp is the best tool for smoothing all areas of the animal's hooves. Length 35cm c/s.

## Hoof & Claw Instruments

**01-1130** Hoof Tester

Test hoof hardness with this popular, steel hoof tester with scored edges for better gripping. Available sizes 13", 13.25", 16" s/s.

**01-1131** Hoof Tester Heavy Duty

Available sizes 13", 13.5" s/s.

**01-1132** Hoof Tester

Length 16" s/s.

**01-1133** Large Hoof Tester

The large model has 12" reins, is 19" long and opens to 9.5". Stainless steel with pointed teeth.

**01-1134** Small Hoof Tester

The small model has 9" reins, is 15" long and opens to 7". Stainless steel with pointed teeth.

**01-1135** Large Modified Hoof Tester

The modified model has 12" reins, is 19" long and opens to 9.5". Stainless steel with reduced teeth.

**01-1136** Hoof Trimmer

Durable steel with bolted construction. Green protective coating covers the steel. 1-1/4" opening between trimmer blades with double compound action. Sharp blades are firmly attached with three recessed screws. Black rubber grip handles. Length 17" c/s.

**01-1137** Nail Clipper

A nail clipper with sure-grip handles for cutting dogs nails. Stainless steel blades are designed to give precision cutting action. Flip-open safety lock protects cutting edge when not in use. 6-3/8" long.

# Hoof & Claw Instruments

**01-1138** Foot Rot Hoof Shear Carbon Steel  
Carbon steel handles: Length 9.5".

**01-1139** Foot Rot Hoof Shear Aluminum  
Ideal for both sheep and goat. Length 9.5".

**01-1140** Foot Rot Hoof Shear Serrated  
Primarily used for sheep: Length 9" s/s.

**01-1141** Foot Rot Hoof Shear Plane  
Available with plane blades and in leather holster 9" s/s.

**01-1142** Trimming Shears  
Red enameled handles with extra-large double bow Length 14".

**01-1143** Single Bow Economy Sheep Shears  
6" shearing blades. Overall Length 12".

**01-1144** Hoof Pick-Vinyl Coated Handle  
Sturdy, vinyl coated handle: Length 5.5" s/s.

**01-1145** Hoof Pick Large - Vinyl Coated Handle  
Pick with vinyl coated handle, s/s.

**01-1147** Hoof Knife Kit  
Available in compact, elegant leather case with zipper. Set includes Wooden handle with 4 different types of Interchangeable blades.

**01-1146** Hoof Pick  
Chrome plated steel rod hoof pick with a screw driver end which can be used to tighten Chicago screws.

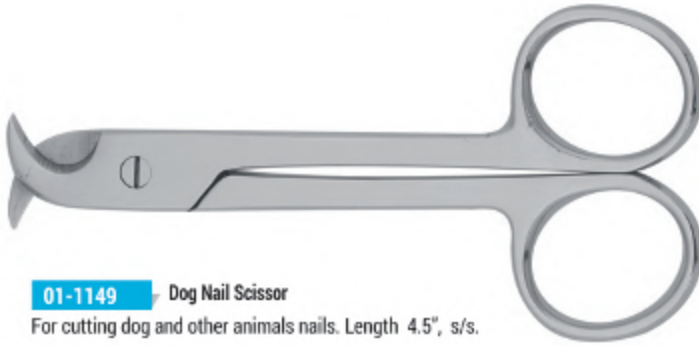

**01-1148** Hoof Knife Kit  
Available in compact, elegant leather case with zipper. Set includes Wooden handle with 6 different types of Interchangeable blades.

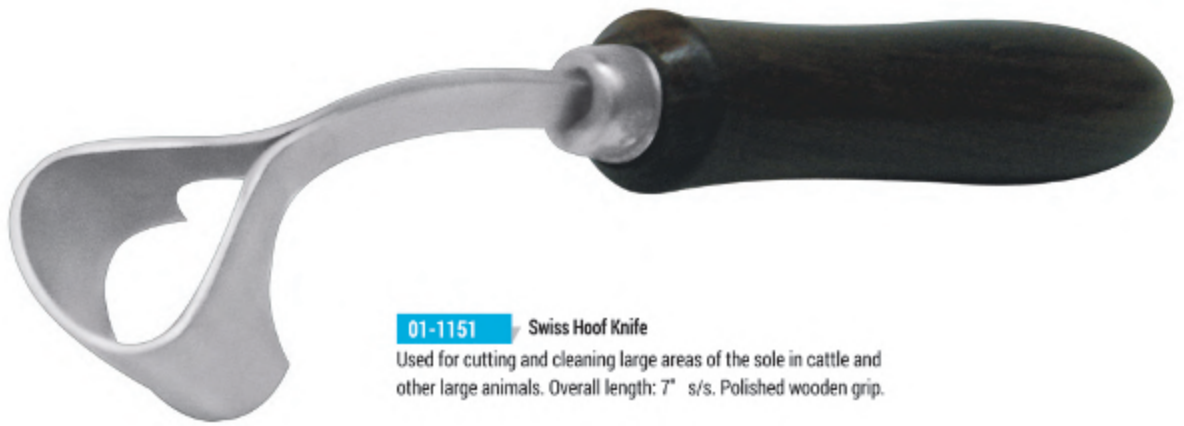

## Hoof & Claw Instruments

**01-1149** Dog Nail Scissor  
For cutting dog and other animals nails. Length 4.5", s/s.

**01-1150** Cat Nail Scissor  
For cutting cat nails. Length 3.5", s/s.

**01-1151** Swiss Hoof Knife  
Used for cutting and cleaning large areas of the sole in cattle and other large animals. Overall length: 7" s/s. Polished wooden grip.

**01-1152** Hoof Knife  
Double edged. Length 7.5" s/s. Polished wooden grip.

**01-1153** Hoof Knife Small Size  
Double edged. Length 6.5" s/s. Polished wooden grip

**01-1154** Oval Hoof Knife  
Available in wooden handle, can be used left or right handed.  
Extra long shaft makes it easier and more accurate to use

**01-1155** Oval Hoof Knife  
Available in wooden handle, can be used left or right handed.

# Hoof & Claw Instruments

Right **01-1156** Left

### Hoof Knife Regular

Regular blade. This durable blade is held by two rivets in the hardwood handle and it extends 2" into handle. 1/2" blade at heel, 3" long, 8.5" long overall. Wooden grip. Available in left and right handed grip.

Right **01-1157** Left

### Hoof Knife

Double edged. Polished wooden grip. Available in left and right handed grip.

Right **01-1158** Left

### Hoof Knife

Polished wooden grip. Available in left and right handed grip.

Right **01-1159** Left

### Hoof Knife

Narrow blade. Polished wooden grip. Available in left and right handed grip.

Right **01-1160** Left

### Hoof Knife

Double edged. Polished wooden grip. Available in left and right handed grip.

Right **01-1161** Left

### Hoof Knife

Curved blade. Polished wooden grip. Available in left and right handed grip.

Right **01-1162** Left

### Hoof Knife

Extra long shaft makes it easier and more accurate to use. Polished wooden grip. Available in left and right handed grip.

Right **01-1163** Left

### Hoof Knife

Narrow blade. Fine wooden grip. Available in left and right handed grip.

# Hoof & Claw Instruments

Right **01-1164** Left

**Hoof Knife**  
Wide blade. Fine wooden grip.  
Available in left and right handed grip.

Right **01-1165** Left

**Hoof Knife**  
Regular blade. Plastic grip.  
Available in left and right handed grip.

Right **01-1166** Left

**Hoof Knife**  
Double edged. Plastic grip.  
Available in left and right handed grip.

Right **01-1167** Left

**Hoof Knife**  
Double edged. Plastic grip.  
Available in left and right handed grip.

Right **01-1168** Left

**Hoof Knife**

Brass bull ring is self-piercing and extremely durable. A long, sharp piercing point ensures a clean cut. Size's Available: 2", 2.5" 3", 3.5"

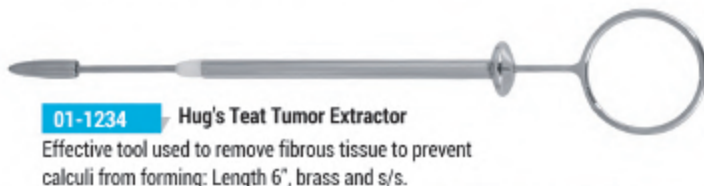

## Teat Instruments

**01-1232 Teat Slitter**  
Opens teat sphincter for greater milk flow. Available with loops. Length 8", brass and s/s.

**01-1233 Teat Tumor Extractor**  
Effective tool used to remove fibrous tissue to prevent calculi from forming. Length 7.5", brass and s/s.

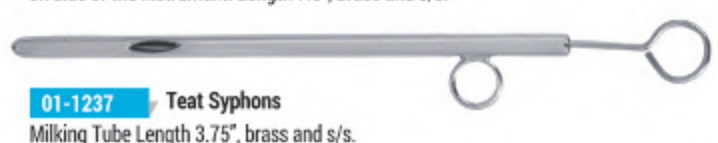

**01-1234 Hug's Teat Tumor Extractor**  
Effective tool used to remove fibrous tissue to prevent calculi from forming: Length 6", brass and s/s.

**01-1235 Danish Teat Slitter**  
Extra thin model. Blades are opened by loosening the small burr on side of the instrument: Length 7.5", brass and s/s.

**01-1236 Cornell teat curette**  
Stainless steel with spiral cutting edge 6"

**01-1237 Teat Syphons**  
Milking Tube Length 3.75", brass and s/s.

**01-1238 Hug's Teat Knife / Teat Lancet**  
Length 6", blade 0.5", s/s.

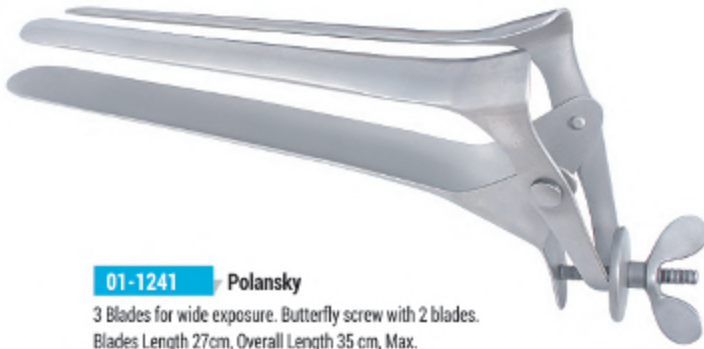

**01-1239 Sudan Blood Taking Needle**  
Length 3.5", brass and s/s.

**01-1240 Milking Tube**  
Length 4.25", brass and s/s.

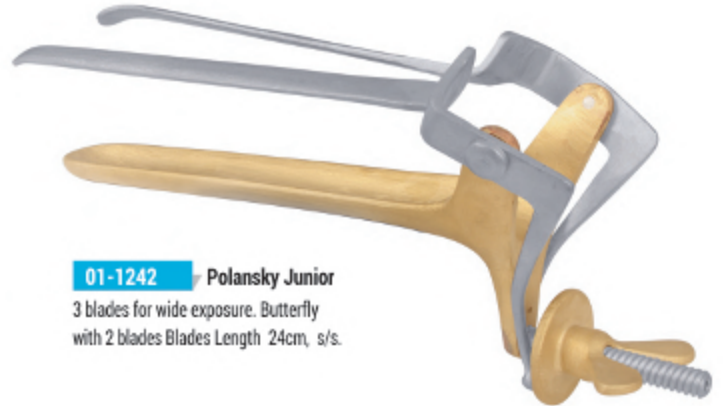

## Vaginal Specula

**01-1241 Polansky**

3 Blades for wide exposure. Butterfly screw with 2 blades.  
Blades Length 27cm, Overall Length 35 cm, Max.  
opening 10 cm, s/s.

**01-1242 Polansky Junior**

3 blades for wide exposure. Butterfly  
with 2 blades Blades Length 24cm, s/s.

**01-1243 Winterton**

Blades Length 10cm, s/s.

**01-1244 Russian**

Blades Length 23cm, s/s.

**01-1245 Graves**

Blades Length 15cm, s/s.

## Snaffles. Dee. Ring Snaffle Bits

**02-1246** Rings stainless steel  
4" to 5-1/2" mouth size available. Ring varies from 45mm to 75mm.

**02-1247** Rings stainless steel  
Mouth and rings made of stainless steel.

**02-1248** Rings stainless steel  
Rings stainless steel. Mouth german steel.

**02-1249** Rings stainless steel  
Rings stainless steel. Mouth carbon steel with leather cover.

**02-1250** Rings stainless steel  
Stainless steel rings. Mouth made of rubber.

**02-1251** Rings stainless steel  
D bit with 5" rubber covered mouth. Stainless steel. Also available in chrome plating.

**02-1252** D ring snaffle  
made of stainless steel. 4-1/2" to 5-1/2" mouth sizes available.

**02-1253** Rings stainless steel  
Stainless steel. mouth made of german steel including chain.

**02-1254** Rings stainless steel  
Rings and mouth made of stainless steel.

**02-1255** Ring Stainless steel  
Stainless steel rings. Link and mouth made of stainless steel.

**02-1256** Ring Stainless steel  
Stainless steel rings. Link made of red copper. Stainless steel mouth.

**02-1257** Ring Stainless steel  
Stainless steel rings. Link and mouth made of red copper.

**02-1258** Ring Stainless steel  
Brass rings. Link and mouth made of brass.

**02-1259** Ring Stainless steel  
Stainless steel.

**02-1260** Ring Stainless steel  
Stainless steel. Mouth made of german steel.

**02-1261** Ring Stainless steel  
Stainless steel.

**02-1262** Ring Stainless steel  
Stainless steel.

**02-1263** Ring Stainless steel  
Stainless steel. Mouth german steel including chain.

**02-1264** Ring Stainless steel  
Stainless steel.

**02-1265** Ring Stainless steel  
Link german silver. Mouth made of stainless steel.

**02-1266** Ring Stainless steel  
Stainless steel pelham including chain.

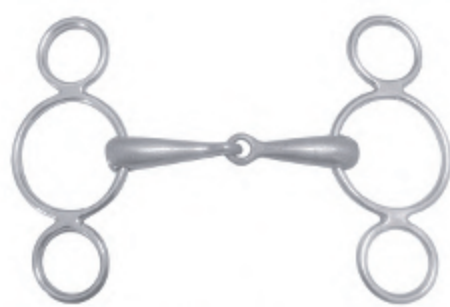

## Snaffles. Dee. Ring Snaffle Bits

**02-1267** Snaffle Bits  
Stainless steel including chain.

**02-1268** Snaffle Bits  
Stainless steel. Link german steel including chain.

**02-1269** Snaffle Bits  
Rings stainless steel. Mouth german steel.

**02-1270** Snaffle Bits  
Rings and mouth made of stainless steel.

**02-1271** Snaffle Bits  
Stainless steel including chain.

**02-1272** Snaffle Bits  
Rings stainless steel. Rubber covered mouth.

**02-1273** Snaffle Bits  
Stainless steel including chain.

**02-1274** Snaffle Bits  
Stainless steel hollow mouth including chain.

**02-1275** Snaffle Bits  
Stainless steel.

**02-1276** Snaffle Bits  
Stainless steel.

**02-1277** Snaffle Bits  
Full cheek with stainless steel mouth.

**02-1278** Snaffle Bits  
Stainless steel.

**02-1279** Snaffle Bits  
Stainless steel.

## Spurs and Stirrups

**02-1280** Spurs Stainless Steel  
Stainless steel spurs with brass buttons and rowel.  
Also available in chrome plating. 2pcs set.

**02-1281** Spurs Stainless Steel  
Stainless steel spurs. 2pcs set.

**02-1282** Spurs Stainless Steel  
Classic hunt and jump spurs in the popular loop end style. Stainless steel. 2pcs set.

**02-1283** Spurs Stainless Steel  
Fine engraving with loop end style.  
Stainless steel. 2pcs set.

**02-1284** Spurs Stainless Steel  
Stainless steel spurs. Gold plated. 2pcs set.

**02-1285** Spurs Stainless Steel  
Carbon steel spurs with powder coating. Buttons and rowel made of brass.

**02-1286** Spurs Stainless Steel  
Carbon steel spurs powder coated with brass buttons.  
16 point rowel. 2pcs set.

**02-1287** Spurs Stainless Steel  
Brass spurs with 10 point rowel. 2pcs set.
